

HP Indigo 10000 Inline UV Coater

High-performance inline UV
coating to the HP Indigo 10000

Business Partner

Versatile inline coating at an affordable price

Having the ability to effectively and affordably coat your digital printing is a critical component to the overall success of “digital on demand printing”. At Tec Lighting we strive to offer the very best in post print coating solutions.

Chambered Anilox coating

Tec Lighting is proud to announce its latest coating technology that incorporates a Chambered Doctor blade coating head. This technology will allow you to run the widest array of both UV and aqueous coatings available.
