

ZLX

The Non Skin **ZLX** Process Series is ZIPSET's latest four color process inks that are specifically formulated to offer printers increased value and profitability in today's fast paced marketplace. **ZLX** is a vegetable oil based ink that stays open on press and in the can for up to 4 days. **ZLX** offers fast dry efficiency coupled with excellent rub resistance which allows for rapid work & turn, job changes and post print finishing. The **ZLX** also has newer binder technology that optimizes ink and water balance increasing stability and efficiency on any size press. Outstanding transfer, release and gloss is also achieved with **ZLX**. For excellence in performance, print sharpness, run ability and value look no further than Zipset's **ZLX** Process Inks.
